DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 13 is rejected under 35 U.S.C. 102(b) as being anticipated by Marier et al.'339 (Marier). Marier discloses a self-propelled lawn mower (figures 1-4) comprising an engine deck (as seen in figure 3) having a rear end (area reference numeral 61, first and second drive wheels 30 mounted proximate the rear end of the engine deck (as seen in figure 3), the rear wheels having a rotational axis (along/through 26) defining a vertical plane and a foot platform 38 at least partially between the wheels proximate the vertical plane (as best seen in figures 1 and 2) and wherein the plane defined by the top surface of the engine deck (as defined along member 12) is higher than the plane defined by the platform (as defined along member 40) in an area proximate the rear end of the engine deck (as seen in figure 3).
